TECHNOLOGY

QUALIFIED LABOR

JUST-IN-TIME DELIVERY

INNOVATION

QUALITY ASSURANCE

SERVITEJO S.A.

## WHO WE ARE?

SERVITEJO S.A., a Peruvian company, started producing and exporting garments in 1998 to the US market. At the beginning we only had the process of sewing, today we have a vertically integrated factory from the spinning to the finished garment.

SERVITEJO's vision is to lead the fashion business by being the best private label manufacturer and by developing its own trend-setting collections each season.

**TECHNOLOGY, INNOVATION, QUALIFIED LABOR,  
QUALITY ASSURANCE & JUST-IN-TIME DELIVERY  
= LEAD IN FASHION**

SERVITEJO is continuously working to have the best technology available in the market. The variety of machines we use in our knitting and dyeing processes allows us to offer our customers a great diversity of fabrics and finishes of the best quality.

Our laboratory is equipped with the best technology for the accurate reproduction of colors and fabrics requested by our clients. Our "Robolab" maker solution, the only one in Latin America, lets us to have an accurate reproduction of colors in less time.

Our excellent workforce enables us to have a commitment to fit and design and our working environment helps us to get the job done.

In reference to our sewing capacity, we can manufacture 350,000 pcs per month, namely 10,000 to 12,000 t-shirts per day or 6,000 polo box per day.

SERVITEJO has a thorough quality control in every process. Shipments are released only after they have been approved by our certified auditors and after they have passed all the tests our laboratory issues (shading, shrinkage, density tests, colorfastness to crocking and laundering, resistance pilling tester, etc).

Nowadays meeting datelines is the key to success not only in fashion business but also in every business, therefore SERVITEJO's just-in-time delivery program and commitment to fulfill timely delivery lets us be competitive.

## PRODUCT INFORMATION

Knits: tops and bottoms (t-shirts, polo shirts, tank tops, turtleneck, henley neck, shorts, pants, dresses, ruggies, jackets, sweaters, etc) in solid or stripes, in different types of fabrics like jerseys, ribs, waffles, interlock, pointelles, pique, fleece, french ferry, mercerized fabrics, full jackards fabrics and collars, etc.

Our vertical mills are suited to offer 100% cotton, carded, combed and ring spun yarns ranging from 10/1, 18/1, 20/1, 24/1, 30/1, 36/1 and pima yarns ranging from 20/1 up to 80/1 singles. We work with high quality tanguis and pima cotton as well as some blends with polyester, viscose, nylon and lycra.

Finishing: SERVITEJO is equipped with laundry equipment for different type of washes, garment dyeing, pigment dyeing, tie dye, dip dye and all kind of chemical washes and finishes (acid, enzyme, silicone, etc). Additionally, we work with embellishments like embroidery, appliqués (rhinestones and studs), and prints (high density, distressed, flocking, etc).

Each year our clients evaluate us through visits. Therefore, our garments have been certified as satisfactory by our clients' inspections, in terms of quality, social responsibility and compliance with local and US laws.
